Donor: Grace Dyk, The Brothers Gallery

Dear Manhattan Christian Families and Friends,

God has blessed us abundantly. Year after year, we witness the growth of our school community—more students, more families, more opportunities to live out our mission of inspiring students to live God-glorifying lives. For this, we are deeply grateful.

However, this blessing brings us to a pivotal moment. We have reached capacity in our current building, and we need your partnership to continue serving the growing number of families who want a Christ-centered education for their children.

Here's what we're facing:

For the 2026-2027 school year, we need at least one additional classroom. For the 2027-2028 school year, we need two more classrooms. Our leadership team explored several options—including renting and purchasing portable classrooms—but these solutions proved cost-prohibitive and didn't reflect the wise stewardship we believe God calls us to practice.

But we have great news.

Our team discovered a better way. We identified an underutilized storage area in our building that can be transformed into beautiful, functional classroom space. Working closely with community contractors and inspectors, we've developed a plan that will serve our students for years to come.

For a cost similar to purchasing a double-wide portable classroom, we will:

- Convert our basement storage into one large, flexible classroom that can be divided into two smaller classrooms as needed
- Add much-needed bathrooms to the downstairs area—a long-standing request from our staff
- Complete the classroom space by July 1, with bathrooms finished before our teachers return for back-to-school inservice in August
- The renovation begins on Monday morning!

These classrooms will immediately serve our growing middle school, freeing up our elementary wing for our expanding elementary program. But our vision extends even further. When God opens the door for a future building addition, we dream of repurposing this space into STEM classrooms featuring shop, robotics, and hands-on learning experiences.

We're asking for your help. Our **Reverse Auction this year** will directly support this renovation project—an investment that will benefit Manhattan Christian students for years to come.

Will you partner with us as we continue to fulfill our mission: "*Inspire students to live God-glorifying lives by teaching Christ's lordship in faith, learning and living?*" We look forward to serving alongside you.

In gratitude and partnership,

Nathanael Hope

Head of School / Manhattan Christian School
